Henry Kramer of This City to Be Toastmaster—Feast at the Blackhawk Hotel.

Complete plans are announced today for the annual banquet of the Tri-City Typothetae Franklin club, which is to be held at the Blackhawk hotel, Davenport, next Tuesday evening at 6:30 in honor of the great printer's 20th birthday.

Charles Grilk, prominent Davenport attorney, is to be the chief orator. He will discuss "Ben Franklin's Past and Present." He is a speaker of unusual gifts and the club is looking forward to his address with special interest.

Kramer to Preside.

Others who will make short speeches are H. C. Ransom and W. E. Freeland, both of Moline; Mrs. Henry Kramer will give a reading. There will also be impromptu talks and instrumental and vocal selections during the meal.

Henry Kramer of this city, who is president of the club, will be toastmaster. Women are to be in attendance and the affair promises to be enjoyable.

examining the passports of passengers and questioning the crew, ordered Mr. and Mrs. Herman and J. Davis ashore. The two men were sent to a detention camp while the woman was permitted to remain at Kingston.

The British officials allowed Mrs. Schlichter, the stewardess on the vessel, to remain aboard as she had taken out her first United States citizenship papers.

BLAZE DESTROYS CAR AND GARAGE

Property of A. C. Barber of Moline Destroyed Last Evening by Fire of Unknown Origin.

Fire of unknown origin last evening destroyed the A. C. Barber garage, located at the rear of his lot, 2022 Sixth avenue, Moline, also demolishing a 1916 Vellie Sedan. Damage, according to Mr. Barber's estimate, will be \$2,500. This is only partially covered by insurance.

Heads of the Moline fire department are at a loss to determine the cause of the fire, which was first noticed by a boy in the neighborhood at 9:50. The blaze had gained considerable headway by this time, and the building was in flames when the department arrived. It was then impossible to rescue the auto from the building.

Explosion of gasoline is attributed by some as being responsible for the fire. Condition of the building when the conflagration was finally extinguished made it impossible to verify this, however. The car, a total wreck, was one of the latest designs, having been only recently purchased.

Wife of Centenarian Dead.

Chicago, Jan. 28.—Mrs. Frances Stanley, 80 years old, wife of Dexter C. Stanley, who celebrated his 100th birthday Jan. 12, died today at their home at Downers Grove, a suburb. Mr. Stanley also is ill and there is said to be little hope of his recovery.

The couple contracted severe colds on the evening of Mr. Stanley's birthday, which was known as "Stanley day" in the suburb and was made a holiday event.

HEAVY BONDS FOR TAX COLLECTORS

Guardians of Fund of \$1,320,814.66 in County Have Furnished Ample Security.

AMOUNTS TO \$838,900.00 HERE

More Than Double That Required of County Treasurer—Woman Serves in Moline.

Work of collecting taxes in this county amounting to \$1,320,814.66 is being pushed rapidly by the various township collectors. Books for all of the townships in the county, except Buffalo Prairie, Zuma and Canoe Creek, have been given out by County Treasurer F. J. Clendenin and it is expected that by tomorrow these will be disposed of.

Collectors are required to file heavy bonds, being fixed at twice the amount of tax charged. In Rock Island township it figures \$838,900, and in Moline \$881,100, in each instance being double the amount which the county treasurer is required to file. His bond to the county is \$300,000 and to the state \$250,000.

One Woman Collector.

It is interesting to note that in Moline township the women's suffrage propaganda has developed to such an extent that a feminine collector is gathering in the shakles. Miss Emma C. Anderson has the unique distinction of being the only "petticoat" collector in Rock Island county.

In Black Hawk township William Goldsmith died last December and A. D. McCartney was appointed by the town board to fill the vacancy.

List for County.

Dye Problem Solved.

Washington, Jan. 28.—Principal American manufacturers of dye stuffs from logwood have agreed to Great Britain's condition of exporting a reasonable amount of products to Canada in return for the lifting of the export embargo from the British possessions in the West Indies. No further difficulty in getting the raw material for American industries now is expected.

Boys Fight Reform School Fire.

Aurora, Ill., Jan. 28.—Boys at the St. Charles state school last night helped in a successful fight to prevent the spread of a fire from a cottage to the administration building, the principal structure on the 1,000-acre tract. The building which burned was one of the oldest which was on the school.

DOCTOR OPPOSED TO BOY BUILDING

Dr. Mabel Otis of Moline Believes Young Women Have First Claim on Public Favor.

Dr. Mabel Otis of Moline has made public a written statement in which she gives reasons why the proposed Moline Y. M. C. A. building for boys should not be erected in that city until another project has been carried to a successful finish, namely, the erection of a building for young women.

Dr. Otis points to the fact that the Y. M. C. A. bars out boys under 12 years of age and those who are not able to pay dues and who have no one to whom to turn to pay these dues for them. She expresses the opinion that the boy under 12 is as much in need of physical and mental training as his older brother. The schools of the city, she says, are the proper places in which to provide evening recreation for the boys. With such a plan in effect there would be no discrimination and no boy would be barred from these school recreation centers because of a lack of money.

Dr. Otis' main objection, however, to the erection of a boys' Y. M. C. A. building in the near future is that the young women of the city have first claim for consideration. An organization known as the Helping Hand club—the membership is more than 200—has quietly been adding to a fund which will be used for the purchase of a site. It is their intention, when they have raised enough money to purchase a site, to make appeal to the public for financial aid in the erection of a suitable building. Up to the present time no begging has been done. The members have contributed from their own wages and have sponsored entertainments from which they have realized goodly sums. The treasury of the club now contains some \$1,600. It is in behalf of these young women that Dr. Otis lays claim to first place in public favor for their project.

ABANDONED GIRLS RESCUED IN BOAT

Parents Leave Children in Home and Water Rises to Within Few Inches of Floor.

With the water a few inches from the floor of their home, two little girls who had been deserted by their parents were rescued by neighbors in the west end of the city at 9:30 o'clock last night.

The family home is on Third street near Seventh avenue, and according to the story Mrs. Margaret Schroeder, police matron, the parents left yesterday morning.

Neighbors, knowing that the parents were absent from the home, on finding that they had not returned last night, rescued the girls from the house with the aid of a rowboat. They are being kept at a home near their own.

Mrs. Schroeder said that she would take steps to permanently care for the children. At noon today she said the parents had failed to return.

KNOX GUEST AT BIG ROTARIAN BANQUET

Harry T. Knox returned today from Chicago, where he attended a meeting and banquet of the Chicago Rotary club, as a representative of the local Rotary club. The banquet was given in honor of A. F. Alberts of Cincinnati, president of the International Rotary clubs. More than fifty presidents of clubs in the middle west attended and 250 were seated at the banquet at the Congress hotel. With Mr. Knox was J. T. Marron of this city. Mr. Marron remained in Chicago to attend an electrical convention.

SOUTHERN NATIONS CHANGE POSTAL LAWS

Washington, Jan. 28.—Reduction of postage on letters and other mail passing between Ecuador, Bolivia, Peru, Colombia and Venezuela has been agreed upon by those nations in a new postal convention recently signed and ratified by a majority of the countries, the department of commerce is informed. The new rate is three cents gold for about seven-tenths of an ounce on letters with corresponding reduction on other classes. A letter from La Guaira, Venezuela, to New York, costs 10 cents, gold, but it may be sent to La Paz, Bolivia, for three cents, though it costs probably ten times as much to transport it there.

A workmen's compensation act will shortly be enforced in the state of Oklahoma.

PACIFICISTS DO NOT PAN DEFENSE

New York, Jan. 28.—The New York Peace society, of which Andrew Carnegie is president, is on record as not willing to lose from the organized peace forces either those who are opposed to all preparation for war or those who believe in increased preparedness. This assertion was made in the annual report of the directors at a meeting of the society yesterday. The directors asserted that they did not believe the question of preparedness to be the essence of the peace movement and have accorded officers and members freedom to express views on national defense. Mr. Carnegie, who is in Florida, was reelected president of the society.
